## EDUCATION AND ACADEMIC DEGREE

---

2001 – 2007	Biomedical sciences, botany (04 B) Ph.D (Vilnius University and Institute of Botany). Doctoral thesis: “Evaluation of intraspecific diversity of the <i>Thymus</i> genus (stability of morphotypes and chemotypes, selection of valuable clones)”, chairman – dr. J. Vaičiūnienė. Field of research: chemical polymorphism; plant secondary metabolites; morphological diversity.
1988 – 1993	Vilnius Universiy, Biology / Master's degree

## PROFESSIONAL EXPERIENCE

---

2016 – present	<b>Chief researcher</b> Laboratory of Economic Botany, Institute of Botany, Nature Research Centre
2020 – present	<b>Assistant</b> Farmacy Center, Institute of Biomedical Science, Faculty of Medicine, Vilnius University
2017 – 2020	<b>Lector</b> Farmacy Center, Institute of Biomedical Science, Faculty of Medicine, Vilnius University
2008 – 2016	<b>Senior researcher</b> Laboratory of Economic Botany, Institute of Botany (from 2010 – Institute of Botany, Nature Research Centre)
2003 – 2008	<b>Researcher</b> Laboratory of Economic Botany, Institute of Botany
2002 – 2003	<b>Junior researcher</b> Laboratory of Economic Botany, Institute of Botany,
1995 – 2002	<b>PhD student</b> Laboratory of Economic Botany, Institute of Botany
1993 – 1998	<b>Laboratory technician</b> Department of Plants Physiology and Microbiology, Faculty of Nature Sciences, Vilnius University

## RESEARCH INTERESTS

Field of research: studies of medicinal and berry plants used in natural ecosystems, the regularities of their interspecific chemical and genetic diversification, plant genetic resources, biological diversity; studies of the diversity of biologically active compounds accumulating in plants, distribution features, accumulation regularities, influence of genetic and environmental factors, functional properties; isolation of biologically active compounds accumulating in plants (hydrodistillation, various extractions) and analysis by various methods (GC-FID, GC-MS, spectrophotometry); analysis of the composition of essential oils by GC-FID, GC-MS methods.

## PUBLICATIONS

*Scientific articles published in journals (books), indexed in „Clarivate Analytics Web of Science“ database (with citation index):*

1. Vaičiulytė V., **Ložienė K.**, Sivicka I. 2022. Effect of Organic Matter Fertilizers on the Composition of Volatiles, Morphometrical and Anatomical Parameters of Essential Oil-Bearing *Thymus × citriodorus* Cultivated in an Open Field Conditions. – *Horticulturae*, 8, 917. <https://doi.org/10.3390/horticulturae8100917>
2. Vaičiulytė V., **Ložienė K.**, Taraškevičius R. 2022. Impact of Edaphic and Climatic Factors on *Thymus pulegioides* Essential Oil Composition and Potential Prevalence of Chemotypes. – *Plants*, 11(19), 2536. <https://doi.org/10.3390/plants11192536>

Berzina (eds) (issn: 1434-3819, isbn: 3-631-55282-3), 23: 18: 487–491.

## **PARTICIPATION IN INTERNATIONAL AND NATIONAL SCIENTIFIC PROGRAMMES AND PROJECTS**

---

2020–2022	<b>leader</b> of Post Doc „Evaluation of fertilization effect on <i>Thymus × citriodorus</i> biomass, essential oil composition, size and density of glandular trichomes“
2019.07–08 2018.07–08	<b>leader</b> of Students' two research practices according to project „Promotion of Students' Scientific Activities“ (part “The Researchers Career Programme 2014–2020”) sponsored by the European Union Structural Funds and implemented by the Research Council of Lithuania (No. 09.3.3-LMT-K-712)
2014–2018	<b>member</b> of MC of COST action FA1306 „The quest for tolerant varieties - Phenotyping at plant and cellular level“
2011–2014	<b>participant</b> of project „Change of bioactive compounds in underutilised berry species depending on genotype and environment“
2011–2013	<b>participant</b> of GRUNDTVIG project Nr.“Forest plants wild harvesting learning in Europe” (LLP-GRU-2011-LT-00137)
2013–2015	<b>participant</b> of project „Education programmes for qualification of pharmacotechnics in Vilnius University“ (part “The Researchers Career Programme 2007–2013”), Nr. VP1-2.2-ŠMM-04-V-06-017, sponsored by the European Union Structural Funds and implemented by Ministry of Education and Science of the Republic of Lithuania.
2013.07–09, 2014.09–12, 2012.09–01, 2012.02–06	<b>leader</b> of Students' researches and research practices according to project „Promotion of Students' Scientific Activities“ (part “The Researchers Career Programme 2007–2013”) sponsored by the European Union Structural Funds and implemented by the Research Council of Lithuania (VP1-3.1-ŠMM-01-V-02-003)
2010–2011	<b>leader</b> of project „Effects of abiotic environmental conditions on distribution of α-pinene enantiomers in common juniper ( <i>Juniperus communis</i> L.) (MIP-10093)
2006–2008	<b>participant</b> of project of Single Programming Document (SPD) measure No. 2.5 „BIOTYRA“
2003	<b>participant</b> of project „Antioxidant and antimicrobial properties of different chemotypes of <i>Thymus pulegioides</i> “ (T-39)

## **INTERNSHIP AND TRAINING**

---

2008	„New multidimensional (MDGC) and comprehensive two-dimensional (GCxGC) approaches in GC“ (Bruges, Belgium); prof. P. J Marriott (RMIT University, Australia)
------	--

2008	trainings „Introduction to SPSS for Windows“ and „Advanced Statistical Analysis with SPSS“ (Vilnius)
2007	GIS training, UAB „HNIT-BALTIC“, Vilnius
2001	Karyological research (University of P. J. Safarik, Kosice, Slovakia)
1999	GC/MS analysis of essential oils (Research Institute of Medicinal Plants, Poznan, Poland)

## PARTICIPATION IN SCIENTIFIC CONFERENCES

---

### International scientific conferences:

1. Vaičiulytė V., **Ložienė K.** 2020. Yield and chemical composition of essential oil in geraniol bearing large thyme (*Thymus pulegioides*). – *International conference “Open readings 2020”*, March 17–20, Vilnius, Lithuania. Book of Abstracts: 428. <http://www.openreadings.eu/wp-content/uploads/2020/04/knyga20N.pdf>
2. Vaičiulytė V., **Ložienė K.**, Taraškevičius R. 2019. *Thymus pulegioides* chemotypes Lithuania: distribution and influence of edaphic factors. – *3rd International Conference on Life and Environmental Sciences “Smart Bio”*, May 2–4, Kaunas, Lithuania. Book of Abstracts: 255.
3. Vaičiulytė V., **Ložienė K.** 2019. *Thymus pulegioides* α-terpinyl acetate chemotype: distribution in Lithuania, allelopathic, autoallelopathic features. – *62nd International Conference for Students of Physics and Natural Sciences “Open Readings 2019”*, March 19–22, Vlnius, Lithuania. Book of Abstracts: 463.
4. **Ložienė K.**, Almonaitytė A. 2019. Relationships between amount of essential oil and anatomical characters of leaves in *Thymus pulegioides*. – *50th International Symposium on Essential Oils*, September 9–11, Vienna, Austria. Book of Abstracts: 166.
5. **Ložienė K.**, Jurevičiūtė R., Bruno M., Maggio A.M., Rosselli S. 2017. Effect of distillation time on composition of essential oil of lemon thyme (*Thymus × citriodorus*) – *48th International Symposium on Essential Oils*, September 10–13, Pécs, Hungary. Book of Abstracts: 118.
6. Vaičiulytė V., **Ložienė K.**, Taraškevičius R., Butkienė R. 2016. Effect of edaphic factors on composition of essential oils of *Thymus pulegioides* growing wild in the east and south east Lithuania. – *47th International Symposium on Essential Oils*, September 11–14, Nice, France. Book of Abstracts: 149.
7. Vaičiulytė V., **Ložienė K.** 2015. Effect of edaphic factors on composition of essential oils of *Thymus pulegioides* L. growing wild in Lithuania. – *8th International Conference on Biodiversity Research*, April 28–30, Daugavpils, Latvia. Book of Abstracts: 162.
8. Vaičiulytė V., **Ložienė K.** 2015. The quest of productive variety of carvacrolchemotype of *Thymus pulegioides*: metabolomic analysis and effects of meteorological conditions. – *46th International Symposium on Essential Oils*, September 13–16, Lublin, Poland. Book of Abstracts: 123.
9. Vaičiulytė V., **Ložienė K.** 2015. Original standardization of pharmacologically valuable compounds in phytopharmaceuticals: separation of variation of carvacrol amount in two different raw materials of large thyme (*Thymus pulegioides*). – *6th International Pharmaceutical Conference “Science and Practice”*, November 5–6, Kaunas, Lithuania. Book of Abstractrs: 28.
10. **Ložienė K.**, Labokas J. 2011. Variation of α-pinene amount in essential oils of Juniperus communis L. growing wild in Lithuania. – *Medicinal and Aromatic Plants in Generating of New Values in 21st Century*, November 9–12, Sarajevo, Bosnia and Herzegovina.

11. Ložienė K., Labokas J. 2011. Effects of abiotic environmental conditions on composition of  $\alpha$ -pinene enantiomers and amount of essential oil in *Juniperus communis* L. – *42nd International Symposium on Essential Oils*, September 11–14, Antalya, Turkey.
12. Ložienė K., Labokas J. 2011. Enantiomeric composition of alpha-pinene in essential oils of leaves and unripe cones of *Juniperus communis* L. – *59th International Congress and Annual Meeting of the Society for Medicinal Plant and Natural Product Research*, September 4–9, Antalya, Turkey. Book of Abstracts: 1295.
13. Šveistytė L., Labokas J., Radušienė J., Karpavičienė B., Ložienė K. 2010. Prioritisation of Medicinal and Aromatic Plant Species for Genetic Resource Conservation in Lithuania. – *28th International Horticultural Congress (IHC)*. August 22–27, Lisbon, Portugal. Book of Abstracts: 74–75.
14. Ložienė K., Labokas J., Valiukonytė T. 2009. Phenotypic diversity of *Juniperus communis* as influenced by different light conditions. – *5th International Conference “Research and conservation of biological diversity in Baltic region”*, 22–24 April, Daugavpils, Latvia. Book of Abstracts: 82.
15. Ložienė K., Šakalytė J., Paškevičius A., Venskutonis P.R. 2009. The effect of *Thymus pulegioides* (Lamiaceae) essential oils on pathogenic yeasts of *Candida* genus. – *Well-known infections – the hottest features of diagnostics and treatment*, September 23–26, Saint Petersburg, Russia. Book of abstracts: 44.
16. Piozzi F., Bruno M., Rosselli S., Ložienė K., Simmonds M.S.J. 2009. Volatile components and antifeedant activity of the essential oil from *Scutellaria hastifolia* L. – *57th International Congress & Annual Meeting of the Society for Medicinal Plant and Natural Product Research*, August 16–20, Geneva, Switzerland. Planta Medica: 75.
17. Ložienė K., Labokas J., Venskutonis P.R., Maždžierienė R. 2008. Measurement of  $\alpha$ -pinene in berries of *Juniperus communis* L. during ripening by GC/MS. – *10th International Symposium on Hypenated Techniques in Chromatography and Hyphenated Chromatographic Analysers (HTC-10)*, January 30 – February 1, Bruges, Belgium.
18. Ložienė K., Venskutonis P.R. 2007. Evaluation of chemical polymorphism of *Thymus* species growing wild in Lithuania. – *4th Nordic Separation Science Society (NoSSS) International Conference*, August 26–29, Kaunas, Lithuania. Book of Abstracts: 90.
19. Ložienė K., Venskutonis P.R. 2005. Variation of Chemical Composition of Essential Oils in *Thymus serpyllum* L. subsp. *serpyllum* growing wild in Lithuania. – *International conference “Integrative Approaches towards Sustainability”*, May 11–14, Jūrmala, Latvia. Book of Abstracts: 61.
20. Ložienė K., Venskutonis P.R. 2005. Reasons of chemotypic variation in *Thymus pulegioides* L. – *XVII International Botanical Congress*, July 17–23, Vienna, Austria. Book of Abstracts: 552.

#### National scientific conferences:

1. Vaičiulytė V., Ložienė K., Taraškevičius R., Butkienė R. 2016. Effect of edaphic factors on quantitative and qualitative composition of essential oils of *Thymus pulegioides*. – *Conference of Young Scientists "Biofuture Perspectives of Natural and Life Sciences"*, 7 December, Vilnius, Lithuania. Book of Abstracts : 3–4.
2. Vaičiulytė V., Ložienė K. 2015. Effect of soil chemical composition on quantitative and qualitative composition of essential oil of *Thymus pulegioides*. – *10th National Conference "Lithuanian Biodiversity: Status, Structure, Protection"*, November 20, Vilnius, Lithuania. Book of Abstracts: 17–18.
3. Vaičiulytė V., Ložienė K. 2014. Effect of climatic conditions on accumulation of carvacrol in essential oil of *Thymus pulegioides*. – *3rd Conference of Young Scientists „The Young Scientists for Agricultural Progress”*, November 6, Vilnius, Lithuania. Book of Abstracts: 31.
4. Vaičiulytė V., Ložienė K. 2013. Quantitative composition of essential oils and pinene isomers of *Juniperis communis* L. growing wild in different parts of Lithuania. – *Conference „Students' scientific research 2012–2013”*, June 27–28, Vilnius, Lithuania. Book of Abstracts: 145–146.

5. Vaičiulytė V., Ložienė K. 2012. Effects of climatic conditions on qualitative and quantitative composition of essential oils of thymol, geraniol and linalool chemotypes of *Thymus pulegioides*. – Conference „Students' scientific research 2011–2012”, June 27–28, Vilnius, Lithuania. Book of Abstracts: 87–88.

## PARTICIPATION IN THE STUDY PROCESS

### *Supervision of PhD students:*

field of science: Biomedical sciences. science direction: ecology and environmental studies (03 B)

Vaida Disertacijos tema: „*Thymus pulegioides* chemotypes in Lithuania: 2013–2017  
Vaičiulytė distribution, influence of edaphic and climatic factors, allelopathic characteristics“

### *Supervision of bachelor and master students:*

Viktorija Maskolaitytė	Master thesis: „Ethnopharmaceutical study of <i>Myrica gale</i> , evaluation of essential oil composition in its leaves and fruits“ (Vilnius University, Pharmacy study program)	2021–2022
Ineta Chochlovaitė	Master thesis: „Chlorophyll and carotenoid levels comparison in some medicinal plants of the Apiaceae, Asteraceae, Lamiaceae, and Rosaceae families“ (VU MF, Farmacijos studijų programa) (Vilnius University, Pharmacy study program)	2021–2022
Roberta Česokaitė	Master thesis: „Effect of dry extracts of tannin-accumulating Ericaceae and Rosaceae family plants on periodontitis pathogens“ (Vilnius University, Pharmacy study program)	2020–2021
Jurgita Paliunytė	Master thesis: „Comparison of phenolic compounds and tannins content in leaves of various Ericaceae species for extraction using different polarity solvents“ (Vilnius University, Pharmacy study program)	2020–2021
Guoda Dubikaitytė	Master thesis: „Influence of Storage Duration on Essential oil Composition in Shredded and Non-shredded Raw Material of Lemon Thyme ( <i>Thymus × citriodorus</i> )“ (Vilnius University, Pharmacy study program)	2019–2020
Anastasija Fiodorova	Master thesis: „Analysis of Native and Non-native Medicinal Plants Included in Pharmaceuticals Marketed in Lithuanian Pharmacies“ (Vilnius University, Pharmacy study program)	2019–2020
Agnė Ščiukaitė	Master thesis: „Effect of Different Storage Temperatures on Essential Oil Composition and Pigments Content in Norway Spruce ( <i>Picea abies</i> ) Needles“	2019–2020
Auksė Grachovskaja	Master thesis: „Analysis of Native and Non-native Medicinal Plants Included in Food Supplements Marketed in Lithuanian Pharmacies“ (Vilnius University, Pharmacy study program)	2019–2020
Dovilė Jackevičiūtė	Master thesis: „Analysis of Native and Non-Native Medicinal Plants Included in Cosmetic and Hygiene Products Marketed in Lithuanian Pharmacies“ (Vilnius University, Pharmacy study program)	2019–2020
Urtė Vaitiekūnaitė	Bachelor thesis: „Quantitative and qualitative research of meadowsweet ( <i>Filipendula ulmaria</i> ) essential oil dependance on blooming stage and soil composition“ (Vilnius University, Biology study program)	2018–2019
Augustė	Bachelor thesis: „Relationship between <i>Thymus pulegioides</i>	2018–2019

Almonaitytė	essential oil yield and anatomical structures of leaf epidermis“ (Vilnius University, Biology study program)	
Rūta Jurevičiūtė	Master thesis: „Effect of processing and hydrodistillation duration of <i>Thymus × citriodorus</i> (Pers.) Schreb raw material on quantitative and qualitative composition of essential oil“ (Vilnius University, Chemical study program)	2016–2017
Liucija Kamaitytė	Bachelor thesis: „Dynamics of amount of essential oil and percentage composition of pinene isomers in the needles of Norway spruce ( <i>Picea abies</i> ) during the vegetation period“ (Vilnius University, Biology study program)	2015–2016
Rūta Jurevičiūtė	Bachelor thesis: „Distribution of (–) and (+) enantiomers of α-pinene in needles of <i>Juniperus communis</i> growing wild in different habitats“ (Vilnius University, Chemical study program)	2014–2015
Monika Petreikytė	Bachelor thesis: „Comparison of the quantitative composition of essential oil and amount of pinene isomers in the needles of common juniper ( <i>Juniperus communis</i> L.) growing wild in different habitats“ (LEU, Biology study program)	2013–2014
Vaida Vaičiulytė	Master thesis: „Effects of some abiotic factors on phenotypic variation in common juniper ( <i>Juniperus communis</i> L.)“ (Vilnius University, Biology study program)	2012–2013
Vytautas Klimavičius	Bachelor thesis: „Comparison of the quantitative composition of essential oils in <i>Thymus pulegioides</i> L. raw material of different years and phenological phases“ (Vilnius University, Biology study program)	2010–2011
Dalia Putnaitė	Bachelor thesis: „Comparison of morphological parameters and germination of seeds of <i>Thymus pulegioides</i> L. hermafrodites and female individuals“ (Vilnius University, Biology study program)	2010–2011
Violeta Kamašina	Magistrinio darbo tema: „Gynodioecy in <i>Thymus</i> species and hybrids growing wild in Lithuania“ (Vilnius University, Biology study program)	2008–2009
Toma Valiukonytė	Bachelor thesis: „Phenotypic variation of <i>Juniperus communis</i> L. depending on habitat conditions“ (Vilnius University, Biology study program)	2008–2009
Violeta Kamašina	Bachelor thesis: „Evaluation of the phenotypic diversity of the interspecific natural hybrid <i>Thymus × oblongifolius</i> Opiz and comparison with parent species“ (Vilnius University, Biology study program)	2006–2007
